

Name _____ SID _____

General Instructions: Place a checkmark next to the track you are applying to. If the track you are applying to has prerequisites, use the space provided below to list the courses that you have taken or will take before departure that will satisfy the prerequisite. If you have questions, please email Amy Veramay (averamay@berkeley.edu) the EAP Scotland Summer adviser *before* submitting your application.

The **Pre-Med/Research** track is divided into two, 4-week sessions: Session 1 is Functional Anatomy, and Session 2 is Life Sciences Research. You'll enroll in one course during each session. All courses are upper division.

The **Research for Life Sciences** track is a 6-week program focused entirely on research. All research projects offer substantial opportunity for independent investigation. See UCEAP website for [available topics](#).

Pre-Med/Research applicants are required to have completed one year of university-level Biology with a minimum grade of C-.

- BIO 1A and 1B

Research for Life Sciences applicants do not have formal prerequisites, but background knowledge of microbiological, molecular, and microscopy techniques is desirable. Please list any relevant coursework below.

Please list courses you have taken, are currently taking, or will complete by the time you depart for the EAP program that satisfy the prerequisites listed for your program track.

Coursework Taken at UC Berkeley

Course Number (e.g.) BIO 1A	Course Title General Biology	Units 3	Grade P(A-)	Term & Year Fall 2019
