

Pre-College Scholars Residential Program

Residential Code | Summer 2025

The Pre-College residence halls are a living-learning community, where each resident affirms the campus [Code of Student Conduct](#), and University Honor Code: “As a member of the UC Berkeley community, I act with honesty, integrity, and respect for others.”

Residents are expected to treat hall staff and their fellow students with respect and integrity. Residents must respect those with whom they live and understand the participatory nature of the Halls. The observance of such principles is not optional and will be expected of every member of the Pre-College Scholars Residential Program.

All of our Community Standards are derived from a small set of underlying principles.

- I will do my share of the effort necessary for the success of the residence halls as a living environment.
- I am responsible for the actions of myself and my guests, and the foreseeable consequences of these actions.
- I will show the same respect for others and for their property that I would expect others to show to me or to me and my family.
- I will do nothing that brings disrepute to the residence halls or their community.

The Pre-College Scholars Residential Program is committed to creating and maintaining a community where all residents and professional staff personnel can learn and work together in an atmosphere free of harassment, exploitation or intimidation. This community extends to events that are held off-site, social media, and all forms of communication where the participants are primarily residents of Pre-College Residence Halls.

Pre-College Residence Halls use the same definitions for sexual violence and harassment as the University. These definitions may be found [here](#).

Accordingly, the Pre-College Scholars Program staff, and the Residence Halls staff will respond promptly and effectively to reports of such behavior to provide relief. The process for reporting and resolving conduct violations is as follows.

If you experience or witness misconduct, violence, or harassment, help is available from the

following resources:

- Situations that are an immediate threat to safety or physical welfare can be reported directly to the University Police (UCPD) by calling 1-510-642-6760 or 911. This number is monitored at all times by a dispatcher who can send immediate assistance. The response time of UCPD to physical threats is generally within a few minutes.
- Minor violations of the Community Standards can usually be easily corrected by self mediation among the involved parties. This type of resolution is encouraged whenever possible, and is usually effective.
- When self-mediation becomes ineffective, uncomfortable, or unsafe, violations can be reported to the Residence Halls staff (Resident Assistants & Mentors (RAMs), Assistant Resident Directors (ARDs), or Residence Halls Professional staff). The resident staff will respond to provide immediate relief as necessary for the safety of the involved parties, and will generally work to implement a resolution within 72 hours. Unresolved cases, or cases that involve resident staff, can be referred to the Pre-College Scholars Program professional staff for resolution, generally within 72 hours.

Please be aware that members of the resident staff are required to report some types of behavior to the University. Resident Assistants & Mentors (RAMs), Assistant Resident Directors (ARDs) are required to report incidents of violence or harassment that target one or more of the University protected characteristics to The Residence Hall Professional staff and the Pre-College Scholars Program professional staff, who will take action as necessary to provide immediate relief. The protected characteristics at the University are:

- Race
- Color
- National origin
- Religion
- Sex
- Gender identity
- Pregnancy
- Physical or mental disability
- Medical condition
- Ancestry
- Marital status

- Age
- Sexual orientation
- Citizenship
- Service in the uniformed services

Residence Hall Professional staff, the Pre-College Scholars Program professional staff, are required to notify the University's Office for the Prevention of Harassment & Discrimination (OPHD) of any reports of possible sexual violence and/or harassment within five days of receiving a report from a student or employee. Resident Hall staff who receive such a report will share the information in a timely manner with the appropriate professional staff. In turn, the reported incident(s) and corresponding follow-up will be managed by the Office for the Prevention of Harassment & Discrimination. The Residence Hall staff will also provide any student who reports such an incident with information about how to access assistance and support at the Office for the Prevention of Harassment & Discrimination as well as University Health Services.
