Chile
UCEAP Advising Notes

Objective
This document is an advising tool written by a Berkeley Study Abroad (BSA) Adviser to review program specific details that may impact a student’s decision to apply for a UCEAP program. The document is not a summary of eligibility requirements, academic, housing, application and other logistical details freely available to students on the UCEAP and BSA website. If any concerns you have are not addressed on the UCEAP website or the Advising Notes document, please contact the BSA Adviser for this program.

COVID-19 Information
The COVID-19 pandemic continues to present challenges related to health concerns and international travel. Please check UCEAP’s Pandemic Updates for the most up-to-date information about program cancellations for the 2023-24 academic year and additional resources and information.

## Resources

### Advisor Contact Information

For BSA Adviser name, email and advising availability, visit [http://studyabroad.berkeley.edu/advising](http://studyabroad.berkeley.edu/advising)

### UCEAP Alums

EAP alumni are one of your best resources for information about the program. If you would like to be put in touch with alums, simply send the BSA Adviser an email with your list of questions and the contact information of returnees who have agreed to be contacted will be shared.
UCEAP Alum-Created Resources

Some of our returnees have created presentations to share with others. You can look at their work through the Student Created Resource Google folder that we will continually update.

Center for Latin American Studies

Being informed of the history and current affairs of Chile and Latin America can lead to a more fulfilling study abroad experience. In addition to keeping up with Spanish language study prior to departure, you are also highly encouraged to attend lectures and events put on by the Center for Latin American Studies at UC Berkeley. You can join CLAS email list for event reminders.

Research by former UCEAP Chile Study Center Director and UCSB Professor Javiera Barandiarán

Programs

SOCIAL-ECOLOGICAL SUSTAINABILITY IN SOUTHERN CHILE (FALL)

This program in Villarrica, Chile was offered for the first time to UCEAP students in fall 2018. All students take the five English-taught courses that pertain to the theme of the program. They will start with a Spanish language course at the beginning of the program. Please note that COVID conditions could alter program structure and calendar.

- Spanish for Environmental Studies (1.3 semester units)
- Latin American Biodiversity Conservation (3.3 semester units)
- Territory, Interculturality and Education for Sustainability (3.3 semester units)
- Conservation of Forest Ecosystems and Wildlife (3.3 semester units)
- Planning for Local Sustainability in a Global Age (3.3 semester units)
- Field Methods for Examining Social-Ecological Systems (1.7 semester units)

Space Limitations

The Chile Social-Ecological Sustainability program has a capacity limitation of 33 spaces for the UC system. Qualified students who apply for the program will be nominated on a first-come, first-served basis based on their UCEAP application submission date/time. The application will
open on November 1 and students are encouraged to apply as soon as possible. In light of this, it is recommended that students complete the UCEAP application first, then complete the Berkeley Study Abroad application second. The UCEAP application submission will be your ‘time stamp’ for consideration for admission to the program.

Considerations
Those who have high level proficiency in Spanish are encouraged to consider an immersion program in Chile, Mexico or Spain because course offerings and choices will be much greater.

UNIVERSITY OF CHILE OR THE PONTIFICAL CATHOLIC UNIVERSITY OF CHILE (Semester, Calendar Year)

Both located in Santiago, the University of Chile and the Pontifical Catholic University of Chile are great options for students who have a strong background or training in Spanish. Alternatively, those who wish to focus on Business and Economics coursework can take advantage of coursework in those areas taught in English at the University of Chile. The immersive experience allows students to 1.) improve their Spanish skills significantly in the six month period abroad and 2.) have maximum flexibility in course choices. Students on such a program can be as independent as they like, but still have the support of a UC Study Center on-site to assist them with academic and personal concerns. Additionally, the UC Study Center in Santiago is well-equipped to assist students in securing an internship for the duration of the semester if students are interested.

Language Prerequisite
For information on how to fulfill the language prerequisite for the regular university track Chile programs, please review the UCEAP Language Prerequisite Guide: Spanish & Portuguese.

University of Chile Business & Economics track

The University of Chile has a strong Economics and Business Faculty that offers coursework in English. UCEAP and the University of Chile have agreed to allow students without the 2 years of university level Spanish to take Economics and Business coursework offered in English. If you do not have the necessary Spanish language background to take classes offered in Spanish, please make sure that the coursework in English at the University of Chile’s Faculty of Economics and Business is a suitable match for your academic needs. This track is intended for those with significant Economics or Business coursework background.

Spanish Language Advisory: This Business and Economics option is open to students without any language background or have up to Spanish 3 or its equivalent. Students without any
Spanish language background are recommended to take a beginner level course prior to departure. Students with advanced Spanish background (Spanish 4 or its equivalent or higher) will need to apply for the regular university program. Regular university program students will still be allowed to take some coursework in Business and Economics taught in English if they choose to do so.

Language Training on the program

The Pontifical Catholic University of Chile and the University of Chile regular university track programs start with a four-week Intensive Language Program (ILP) before students start regular university course work. The ILP allows for intensive Spanish language and Chilean Spanish training and is a period to help students transition to and be prepared for regular university coursework for the rest of the term.

What's the difference between the two host universities? How do I choose which one to rank as my top choice?

- Review the information on the UCEAP website
- Research which courses are available at each university. Note that Business and Econ courses offered in English are only available at the University of Chile.
- Talk to the BSA program adviser during advising
- Get in touch with Alums or Reciprocity Students

Political activities’ impact on host universities

In past years, social and political activity in Chile has had an impact on classes. Strikes at the universities or around the city can happen and disruption to in-class learning is possible. UCEAP and the Santiago Study Center may deem it necessary and appropriate for students to switch host institutions to alleviate the disruption on students’ academic progress or they may recommend alternative learning options.

Academics

**Flexibility is important.** Keep in mind that the courses you find in the UCEAP Course Catalog or on the host university’s web site may not be offered the semester(s) you will be abroad. Oftentimes you will not have concrete information about what courses will be offered until shortly before departure or even until upon arrival in Chile. Be prepared for the possibility that you will have to modify your plans.

**Internships** Students can maintain a full load of courses during the semester or they can also replace a course with an internship. Students who wish to replace a course with an internship will need to commit a certain number of hours at their internship and complete the necessary academic work related to the internship.
Cal Teach in Chile

For Math or Science majors who are involved with the Cal Teach program at UC Berkeley, there is a CalTeach internship opportunity through the University of Chile where you can get a field placement at a local school.

Global Poverty and Practice in Chile

Students in the Global Poverty and Practice minor could potentially complete their Practice Experience and/or Global and Area Studies elective requirement while on the UCEAP Univ. of Chile or Pontifical Catholic Univ. of Chile programs (or the UCEAP Mexico Field Research Program or the Berkeley Study Abroad Global Internships program in Mumbai, India). The UC Study Center in Santiago is well equipped and connected to various local organizations and can pair interested students in an internship experience. Internships can be in a variety of fields. A list of examples of possible internships through UCEAP Chile program is available.

To facilitate the process, we will ask GPP students to go through a pre-application process. The deadline for the pre-application is late November for summer, fall and academic year participants and it is in late April for spring participants.

MULTISITE: HUMAN RIGHTS AND CULTURAL MEMORY, BUENOS AIRES AND SANTIAGO- FALL

For Advising Notes about the Multisite HRCM Argentina & Chile program, please go to the specific page for this program.
