The COVID-19 pandemic continues to present challenges related to health concerns and international travel. UCEAP has been updating their website’s Coronavirus Notice with up-to-date information. Please check this website for the most up to date information about which programs are running in the 2022-23 academic year.

Updated August 2021.

Ireland - Summer
Dublin Science & Engineering
UCEAP Advising Notes

Objective of the Advising Notes Document
This document is an advising tool written by a Berkeley Study Abroad adviser to review program specific details that may impact a student’s decision to apply for an EAP program. The document is not a summary of eligibility requirements, academic, housing, application and other logistical details freely available to students on the UCEAP and BSA website, and reviewed by a student in the Program Self-Assessment. If any concerns
you have are not addressed on the UCEAP website, in the Program Guide or the Advising Notes document, please contact the BSA adviser for this program.

This document does not reference the physics track as this option is not available for Berkeley students.

Advisor Contact Information
The BSA Adviser for Ireland is Amy Veramay (averamay@berkeley.edu). Amy studied abroad in Ireland and would be happy to share about Dublin.

Application
You can use this website “Preparing for the UCEAP application” to assist you.

There are three applications for this program:
1) Berkeley students will start their application via the Berkeley Study Abroad website.
2) Students will then complete a second application in the UCEAP Portal.
3) Later on in the process, not at the time of your initial applications, students will also apply directly to University College Dublin. You will be prompted for this application, so don’t worry!

Academics
All students are required to take two courses (4 semester UC units each). Each course is four weeks long to total an 8 week program.

The Science and Engineering School at the University College Dublin offers Berkeley students one track option: Organic Chemistry.

This track ran for the first time in summer 2019 and is equivalent to UCB’s Organic Chemistry sequence Chem 3A/3AL and 3B/3BL. Please note that for any student pursuing a pre-health track that requires organic chemistry (med, dental, pharm, vet, etc), this course will not work due to the very unique chemistry sequence that students take at Berkeley. If you are pre-health, please reach out to Amy or consider another study abroad program.

Cohort
This program allows students to take courses alongside international and UC system-wide students. To see how big the UCB cohorts were per university, check out this chart.

Other Important Notes
Delayed Grades from Abroad: Important for Seniors
Depending on the host institution, UCEAP will transmit your UCEAP courses, units, and grades to Berkeley up to 90 days after your program officially ends. You cannot be administratively graduated until your UCEAP grades are reported to Berkeley, are posted to your transcript, and a degree audit is conducted.

The Berkeley Office of the Registrar only administratively graduates students (a.k.a. degrees are “posted” to transcripts) three times per year: October for students with a Summer anticipated graduation date, February for students with a Fall anticipated graduation date, and July for students with a Spring anticipated graduation date. If your EAP grades arrive after degrees are posted for your term of participation, your degree will be processed and posted to your transcript with the next term’s degree list.

You can review this chart to see when students at your host university in the past have had their EAP grades transmitted to the Berkeley Office of the Registrar. Factoring in a 1 to 4-week delay for grades to appear on your Berkeley transcript, determine when your degree is likely to be posted by the Berkeley Office of the Registrar (October, July or February).

If you determine that your grades are likely to arrive later than the term you need to graduate from Berkeley to stay eligible for your graduate program or another post-graduation opportunity, contact the
program/employer you are applying to as early as possible. Ask about their policy on delayed graduation due to study abroad participation. Find out how long they can wait for UCEAP grades to be recorded on your official Berkeley transcript and for your degree to be posted by the Berkeley Office of the Registrar.

Ask your graduate program or employer if you can provide some academic information while waiting for your UCEAP grades or Berkeley diploma. If courses and grades do not yet appear on your Berkeley transcript, ask the program/employer if it will accept an official "Verification of UCEAP Coursework." This is a letter from UCEAP verifying dates of UCEAP attendance and giving the estimated dates of arrival for course titles, units, and grades. You can get this letter from your BSA Campus Adviser or from your UCEAP Academic Specialist for your program. If your UCEAP grades already appear on your Berkeley transcript but you are waiting for your degree to be posted, you can also request a Certificate of Completion. Read more about Transcripts and Diplomas on the Office of the Registrar website.

**EAP Alums**

EAP alumni are one of your best resources for information about the program. If you would like to be put in touch with alums, simply send the BSA Adviser an email with your list of questions and the contact information of returnees who have agreed to be contacted will be shared.

**EAP Alum-Created Resources**

Some of our returnees have created presentations to share with others. You can look at their work through the [Student Created Resource Google folder](#) that we will continually update with tips, example schedules and presentations from students who have participated in this program.

**Making friends with locals**

When students are able to make friends with locals while studying abroad, their experience is enriched. The recent post [How to Make Friends with Locals While Abroad](#) by UCEAP student Elizabeth Lemerand (UCLA) offers advice for students to make meaningful connections while they travel.
