

Limited Capacity UCEAP Programs

This is a guide for Berkeley students applying to select UCEAP programs with Limited Capacity. Please refer to the [UCEAP-How to Apply](#) page for more detailed information and access to applications. **Berkeley students must submit both a [Berkeley Study Abroad](#) application and a [UCEAP application](#) by the program deadline.**

What are Limited Capacity programs?

Limited Capacity programs are select UCEAP programs with a limited number of spots available. Limited capacity may be due to housing constraints, a host university exchange agreement, program logistics, or other reasons.

Students will increase their chances of getting into the program if they submit a carefully crafted and thoughtful application as soon as the application opens. We recommend that all students discuss their program of interest and the capacity constraint with the appropriate [Study Abroad Adviser](#) well before the application deadline.

Limited capacity programs have limited spaces available and qualified applicants are accepted on a first-come, first serve basis based on their application submission date/time. See further instructions below regarding which application will be utilized for the timestamp, depending on program and term.

Which programs have Limited Capacity?

Summer, Fall, Year 2023-24

Applications open on November 1, 2022.

To be a competitive candidate for a Summer, Fall or Year limited capacity program, we recommend the following:

1. Before you apply, ensure you meet all program eligibility and application requirements.
2. Seek early advising.
3. Prioritize and submit your **UCEAP application first** and then submit your Berkeley Study Abroad application within the same day.
