Objective

This document is an advising tool written by a Berkeley Study Abroad advisor to review program specific details that may impact a student’s decision to apply for an UCEAP program. The document is not a summary of eligibility requirements, academic, housing, application and other logistical details freely available to students on the UCEAP and BSA website. The best source of detailed program information are the UCEAP webpages for Taiwan. If any concerns you have are not addressed on the UCEAP website or this Advising Notes document, please contact the BSA Advisor for this program.

COVID-19 Information

The COVID-19 pandemic continues to present challenges related to health concerns and international travel. UCEAP has been updating their website's Coronavirus Notice with up-to-date information. Please check this website for the most up to date information about which programs are running in the 2022-23 academic year.

Day in the Life of an Exchange Student in Taiwan // National Taiwan University (NTU) | 2020
Citizenship and Passport Considerations

Taiwan citizens may apply to Chinese in Taipei and Research in Taipei only if you are a currently enrolled UC student at the time of application.

If you have only Taiwanese citizenship, you are not eligible for the National Taiwan University program. However, you are eligible to apply if you hold dual citizenship. Dual citizenship holders (for example, hold both Taiwan and US passports) ARE eligible to apply using their non-Taiwanese passport.

PRC citizens may apply to the National Taiwan University program for the Fall or Spring terms, but they are ineligible to apply for the year-long term.

If you currently hold or have ever held Taiwanese citizenship, there are important considerations for studying abroad in this program. All male citizens between the ages of 18 and 36 who were born in Taiwan or who have ever held a Taiwan passport are subject to compulsory military training by the Taiwanese government. This policy applies to dual citizens, even if you enter Taiwan on your non-Taiwanese passport. You may also be required to submit additional paperwork. You may obtain additional information from the Taipei Economic and Cultural Representative Office (TECO). Contact the BSA adviser for Taiwan if you fall in this category and are considering studying abroad in Taiwan.

Non-U.S. citizens should contact TECO now to determine visa requirements for your country of citizenship. Contact the U.S. Citizenship and Immigration Services (USCIS) if you have questions about re-entering the U.S.

Students who are in the process of applying for U.S. citizenship or making any legal name changes are not eligible to apply unless the changes will be completed before application to the UCEAP program. There are no exceptions to this.

For all UCEAP Taiwan programs, students cannot be accepted to a Taiwanese university without a valid passport. Your UCEAP application will state how long your passport must be valid after the end date of the program and when a photocopy of it will be due. If you do not have a passport or need a renewal, please review the Passport Information section of the COVID-19 Information for Berkeley Study Abroad Students page, and take action immediately.

Scholarship Opportunities

All UCEAP students are encouraged to apply for a UCEAP Scholarship, which offers a $1000 award for summer programs. For more information, visit the UCEAP Scholarships page.

US Citizen Pell Grant recipients are encouraged to apply for the Gilman Scholarship, which offers a possible award of up to $5000. For more information, visit gilmanscholarship.org.

More information on financial aid and scholarships can be found on our website: http://studyabroad.berkeley.edu/finances
Financial aid students can request a financial aid estimate for the program here: https://studyabroad.berkeley.edu/finances/financial-aid-advising

Program Considerations: National Taiwan University

NTU provides one of the least expensive UCEAP options in Asia at one of the top-ranked research university partners with whom UCEAP works.

NTU courses taught in Mandarin are for students with native or near-native language ability. Regular NTU subject offerings that are taught in Mandarin use traditional characters.

Occasionally, NTU courses will offer lectures in Chinese with textbooks and other materials in English.

NTU Courses taught in English are in a range of fields and are open to all UCEAP students regardless of language ability. Students can look for courses taught in English on NTU’s website.

UCEAP students can take one Chinese language course offered through the Chinese Language Division (CLD) at NTU.

All courses available to UCEAP students operate on the regular NTU calendar. Fall courses run from September to mid-January and spring courses run from February to mid-June. It is not possible to make arrangements to take exams early for NTU courses. Therefore, it is not possible to depart Taiwan earlier than mid-January or mid-June, respectively. For Fall package students, it is possible to complete final exams at NTU in mid-January and return to Berkeley in time for the beginning of the spring semester.

Students going to NTU in the Fall, Spring, or Year packages must complete a Medical Examination Report as part of their host university application, including a chest x-ray. This medical exam is in addition to the regular UCEAP Health Clearance (instructions will be provided after selection to the program) and can cost between $200 and $300 to complete at the Tang Center. The cost of the health clearance is factored into the UCEAP budget for the program, but financial aid recipients must plan carefully for pre-departure expenses that occur before the disbursement of financial aid for UCEAP. The exam can also be completed upon arrival at NTU.

NTU housing for Fall, Year, and Spring programs will not be available until 2023-24 due to a housing shortage.

For the NTU Year program and Fall program, qualified students who apply for this program will be nominated to this program on a ‘first come first serve basis’ based on their UCEAP application submission date/time. UCEAP applications for the 2023-24 cycle of participation will open on Saturday, October 1, 2022 at 12 AM (PST) and students are encouraged to apply as soon as possible. On the BSA website’s Explore tool, you will be able to see that application filing period for specific programs.
In light of this, it is recommended that students complete the UCEAP application first, then complete the Berkeley Study Abroad application second. The UCEAP application submission will be your ‘time stamp’ for consideration for admission to the program. It is encouraged that students set aside time to complete both the UCEAP application and BSA application on/as close to the open date as possible.

**Program Considerations: Chinese in Taipei**

This program offers intensive language study in Chinese from beginning to advanced levels. Students earn 8 semester units on the program. Please note that this program is **not** open to native Chinese speakers, because there is no coursework offered at this level.

**Program Considerations: Research in Taipei**

This program offers a variety of research opportunities. Available departmental labs include the College of Science, College of Electrical Engineering & Computer Science, College of Engineering, College of Bio resources and Agriculture, College of Life Science, College of Public Health, and School of Veterinary Medicine. [Click here](#) for current project descriptions and the leading professors’ background and specialties.

Students earn 4 semester units for research and 2 semester units for a culture course, for 6 total semester units.

Prospective students are encouraged to accept placement in this program only if they are certain they will be able to participate within the lab they are assigned. Lab research placements such as this are often competitive; if you accept and later decline a placement, you may be taking an opportunity away from students who were not nominated. Research teams at NTU also count on having nominated students as part of their lab, so you are encouraged to accept the placement only if you can commit to participation in the program.

**Considerations for Transfer Students**

Transfer students should review BSA’s [I am a Transfer Student webpage](#) for an overview of considerations. As a general rule, transfer students are eligible to apply for study abroad programs that take place after the student has completed one term at UC Berkeley (i.e., if their first term at Berkeley is Spring 2023, the earliest they could study abroad is Summer 2023. If their first term at Berkeley is Fall 2023, the earliest they could study abroad is Spring 2024). This applies for all UCEAP Programs in Taiwan.
Considerations for LGBTQ+ Students

Taiwan is included on UCEAP’s list of LGBTIQ-tolerant countries, which was compiled using information from the Spartacus Gay Travel Index. Information from the U.S. Department of State’s 2020 Country Reports on Human Rights Practices is as follows:

The law stipulates employers cannot discriminate against job seekers based on sexual orientation and prohibits schools from discriminating against students based on their gender expression, gender identity, or sexual orientation.

Activists for lesbian, gay, bisexual, transgender, and intersex (LGBTI) rights said due to victims’ reluctance to lodge formal complaints, discrimination against LGBTI persons was more widespread than suggested by the number of court cases. Reported instances of violence against LGBTI individuals were rare, and police response was adequate.

In September several LGBTI advocacy and parents’ groups voiced support for, while other non-LGBTI groups protested against, the Ministry of Education’s selection of a children’s book featuring a same-sex couple for elementary-school readers.

Considerations for Students with Disabilities

Students seeking accommodations should review BSA’s I am a Student With Disabilities webpage for an overview of considerations. If you receive accommodations at UC Berkeley and would like to know if they are also available in the program abroad that interests you, it is a good idea to email your BSA adviser to inquire about your specific needs. That way, if your needs cannot be accommodated in that program, you can investigate other programs that might.

Considerations for Graduating Seniors

If you are a graduating senior who is applying to a Spring package program, please be advised that the finals period may stretch into June or July. Returning to Berkeley to walk in a commencement ceremony is an unrealistic expectation for Spring participants. If walking in graduation is very important to you, we recommend that you apply to the National University Singapore, as there is a better chance that the program will end before commencement. As an alternative to walking in a Spring ceremony, there is also a UC Berkeley "December Graduates Convocation" if you would like to have the experience of walking in graduation (not department specific). Similarly, you can wait and walk in the following Spring departmental ceremony.

Graduating seniors participating in a spring program should ensure they are on the Spring degree list. If you are not yet on this degree list, you should contact your UC Berkeley College Adviser to petition moving your expected graduation term. However, spring grades are often not reported to UCEAP until mid-August, so your grades will not arrive in time for your degree to be processed with the spring degree list (which occurs in mid-July). You will be automatically removed from the spring degree list and placed onto the summer degree list, which is processed
in October. Thus, your diploma would display a summer graduation date rather than a spring graduation date. **This policy is subject to change.** For all students, after your UCEAP grades arrive and you are waiting for the next degree list to be processed, you can request a "Certificate of Completion" from the Berkeley Registrar that can serve as "proof" of graduation.

Diversity Abroad Resources

BSA recognizes that there are many nuances to exploring your identities abroad, and these articles may not be representative of all identities and experiences. Diversity Abroad resources, however, are a great starting place for your exploration. You can find a variety of articles to help you prepare for your study abroad experience.
