The COVID-19 pandemic continues to present challenges related to health concerns and international travel. UCEAP has been updating their website’s Coronavirus Notice with up-to-date information. Please check this website for the most up to date information about which programs are running in the 2022-23 academic year.

Updated December 2021.

UK - Scotland
Summer Research in Glasgow

UCEAP Advising Notes
**Objective of the Advising Notes Document**

This document is an advising tool written by a Berkeley Study Abroad adviser to review program specific details that may impact a student’s *decision to apply* for a UCEAP program. The document is *not* a summary of eligibility requirements, academic, housing, application and other logistical details freely available to students on the UCEAP and BSA website, and reviewed by a student in the Program Self-Assessment. The best source of detailed program information is always the [UCEAP Program Guide](#) from the prior academic cycle. If any concerns you have are not addressed on the UCEAP website, in the Program Guide or the Advising Notes document, please contact the BSA adviser for this program.

*This document does not reference the Glasgow Science and Engineering program as the physics tracks are no longer available for UC Berkeley students.*

**Advisor Contact Information**

The BSA Adviser for Scotland is Amy Veramay ([averamay@berkeley.edu](mailto:averamay@berkeley.edu)). Amy has spent time visiting and traveling around Scotland and would be happy to help you compare cities and universities.

**Application**

You can use this website “Preparing for the UCEAP application” to assist you.

There are three applications for this program:

1. Berkeley students will start their application via the Berkeley Study Abroad website.
2. Students will then complete a second application in the UCEAP Portal. Within the UCEAP portal, students rank the top 3 programs of interest, and will provide a 250 word supporting statement regarding your ranking.
3. Later on in the process, *not at the time of your initial applications*, students will also apply directly to their host university.

*Students are encouraged to apply for this program as soon as possible, and research spots will be granted on a first come first served basis.*

**Academics**

The University of Glasgow Summer Research in Glasgow program offers students an opportunity to focus on a single research topic in *life science, chemistry or history*. You’ll work one on one with a mentor with experience in your field. You’ll take a 6 unit class for a letter grade. This is a new program for Summer 2022.

You can see some examples of previous research projects [here](#).

Here are the lists of the Summer 2022 research projects in:

- Life Sciences
- Chemistry
- History

**Program Information**

This program includes airport pickups, excursions and meal plan at no extra cost! Please [review this PDF](#) of a recent webinar with additional information about the program.
**Other Important Notes**

**Delayed Grades from Abroad: Important for Seniors**

Depending on the host institution, UCEAP will transmit your UCEAP courses, units, and grades to Berkeley up to 90 days after your program officially ends. You cannot be administratively graduated until your UCEAP grades are reported to Berkeley, are posted to your transcript, and a degree audit is conducted.

The Berkeley Office of the Registrar only administratively graduates students (a.k.a. degrees are “posted” to transcripts) three times per year: October for students with a summer anticipated graduation date, February for students with a Fall anticipated graduation date, and July for students with a Spring anticipated graduation date. If your EAP grades arrive after degrees are posted for your term of participation, your degree will be processed and posted to your transcript with the next term’s degree list.

You can review this [chart](#) to see when students at your host university in the past have had their UCEAP grades transmitted to the Berkeley Office of the Registrar. Factoring in a 1 to 4-week delay for grades to appear on your Berkeley transcript, determine when your degree is likely to be posted by the Berkeley Office of the Registrar (October, July or February).

If you determine that your grades are likely to arrive later than the term you need to graduate from Berkeley to stay eligible for your graduate program or another post-graduation opportunity, contact the program/employer you are applying to as early as possible. Ask about their policy on delayed graduation due to study abroad participation. Find out how long they can wait for UCEAP grades to be recorded on your official Berkeley transcript and for your degree to be posted by the Berkeley Office of the Registrar.

Ask your graduate program or employer if you can provide some academic information while waiting for your UCEAP grades or Berkeley diploma. If courses and grades do not yet appear on your Berkeley transcript, ask the program/employer if it will accept an official “Verification of UCEAP Coursework.” This is a letter from UCEAP verifying dates of UCEAP attendance and giving the estimated dates of arrival for course titles, units, and grades. You can get this letter from your BSA Campus Adviser or from your UCEAP Academic Specialist for your program. If your UCEAP grades already appear on your Berkeley transcript but you are waiting for your degree to be posted, you can also request a Certificate of Completion. Read more about Transcripts and Diplomas on the Office of the Registrar website.

**EAP Alums**

EAP alumni are one of your best resources for information about the program. If you would like to be put in touch with alums, simply send the BSA Adviser an email with your list of questions and the contact information of returnees who have agreed to be contacted will be shared.

**EAP Alum-Created Resources**

Some of our returnees have created presentations to share with others. You can look at their work through the [Student Created Resource Google folder](#) that we will continually update with tips, example schedules and presentations from students who have participated on this program.

**Making friends with locals**

When students are able to make friends with locals while studying abroad, their experience is enriched. The recent post [How to Make Friends with Locals While Abroad](#) by UCEAP student Elizabeth Lemerand (UCLA) offers advice for students to make meaningful connections while they travel.
